

Dear President Obama and Members of Congress:

Now is the time to take immediate and forceful action in response to the unparalleled environmental catastrophe caused by **BP's oil drilling disaster** in the Gulf of Mexico. To restore the Gulf, defend our communities, and create a clean future, please do the following:

- Take over all clean up and protection efforts and mobilize more government resources to defend the Gulf coast, then send BP the bill;
- Provide Gulf communities and fishermen the resources needed to fight for their future;
- Restore Louisiana's coastal wetlands and natural lines of defense against hurricanes;
- Enact more effective regulation and enforcement of the oil industry to prevent disasters in the future, and ensure no coast experiences a similar calamity by investing in clean, renewable energy and moving our economy beyond oil.
