PAINT & SIP

IN THE SANCTUARY

MY CAPSTONE PROJECT

VISION: To create a relaxed space where community members could gather, and express themselves through art while learning about local environmental issues.

EXPRESS

Unleash creativity through art in a welcoming space.

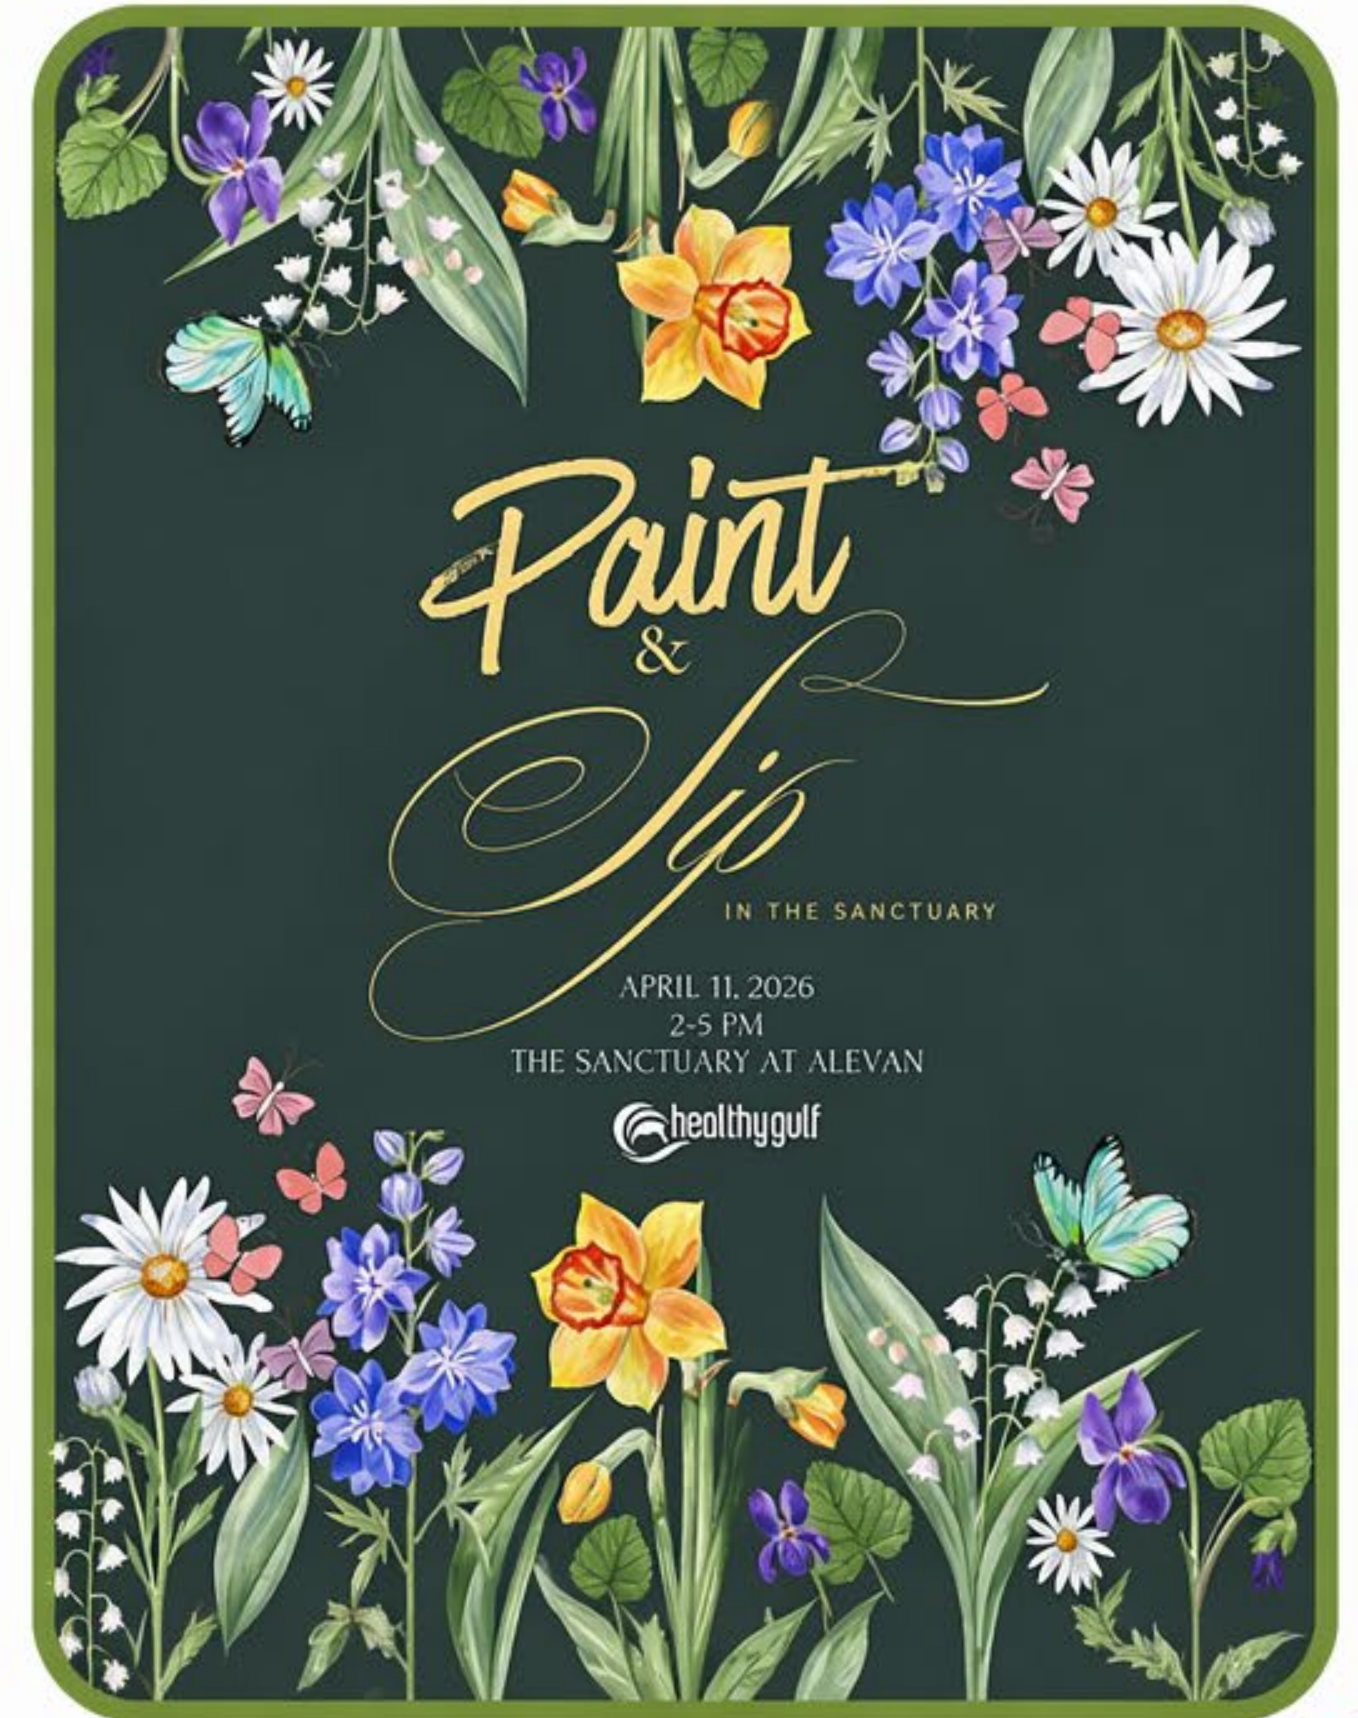

LEARN

Discover local environmental issues and solutions.

CONNECT

Build community and inspire positive change together.

IMPACT OF PAINT & SIP IN THE SANCTUARY

COMMUNITY

Created a welcoming and relaxing space where people felt comfortable connecting and expressing themselves.

ENGAGEMENT

Participants actively painted, shared stories, and engaged with one another throughout the experience.

AWARENESS

Introduced environmental topics in a creative and approachable way, helping guests learn while having fun.

Paint & Sip in the Sanctuary brought people together through art, strengthened community bonds, and created a meaningful space to learn, relax, and connect.

This experience showed that creativity can be a powerful tool for community building and environmental awareness.

HOW WAS *paint & sip* BIRTHED?

This event actually started at home.

My mom and I have always bonded over arts and crafts. It's our favorite way to spend time together.

When I was told to create a capstone project, she helped me come up with the idea for this Paint & Sip.

It's basically our mother daughter bonding time brought to life to **celebrate the planet!** 

HOW DOES *paint & sip* TIE INTO HEALTHY GULF?

Healthy Gulf is all about bringing people together to stand up for our coast.

A Paint & Sip does the same thing. It brings us together as a community to celebrate our home.

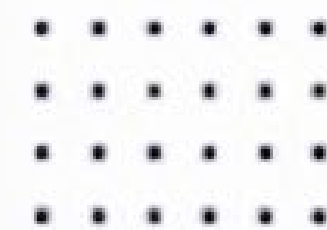

We're 'sipping' to a future where our Gulf stays **blue** and our coast stays **green**.
